ABOUT ME

As a Computer Engineering Executive graduate from the Pontifical Catholic University of Valparaíso, I have specialized in Full Stack and Mobile Development for iOS and Android, accumulating over a year of experience in the sector. In my current role, I not only actively contribute to the development team but also serve as a project co-leader. I am well-versed in version control systems management and workflow coordination, using advanced tools like Redmine and Open Project. I am characterized by my commitment to projects, my ability to work efficiently under pressure, and meet established deadlines while maintaining a positive attitude. My interpersonal skills and collaborative approach allow me to integrate and contribute effectively to diverse work teams. I am deeply interested in Software Development, Mobile Development, and Project Management, areas in which I continuously seek to grow and add value.

WORK EXPERIENCE

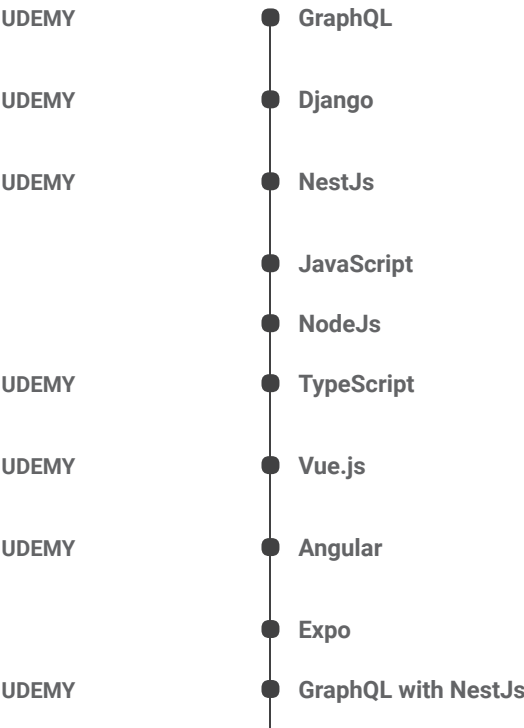

ZDAD-
INFORMÁTICOS
Viña Del Mar
Jul 2024 - Present
